- REDUCE FRUSTRATION
- IMPROVE SAFETY
- AUSTRALIAN MADE
- REMOTE TECHNOLOGY
- SUPA-SLIP HOSE
- HEAVY DUTY
- CUSTOMER CARE

SINGLE REEL
STAINLESS STEEL

PRODUCT OVERVIEW

The UTV range was designed specifically to fit onto UTV style vehicles.. And just because it's small doesn't mean it has any less grunt!

Incorporating all the power and features of our larger Intelli-Spray® systems, the UTV features a stainless steel reel and chain guard, tough 5HP Honda motor, the high quality Bertolini triple diaphragm, medium pressure pump, 100m Supa-Slip hose and options of 300 litre or 400 litre tanks.

Perfect for farmers, spraying contractors, golf courses, park and garden spraying, the Intelli-Spray® UTV model combined with a Utility Terrain Vehicle (UTV) provides the operator with the advantage of access to hard to reach areas with a small but heavy duty spray unit.

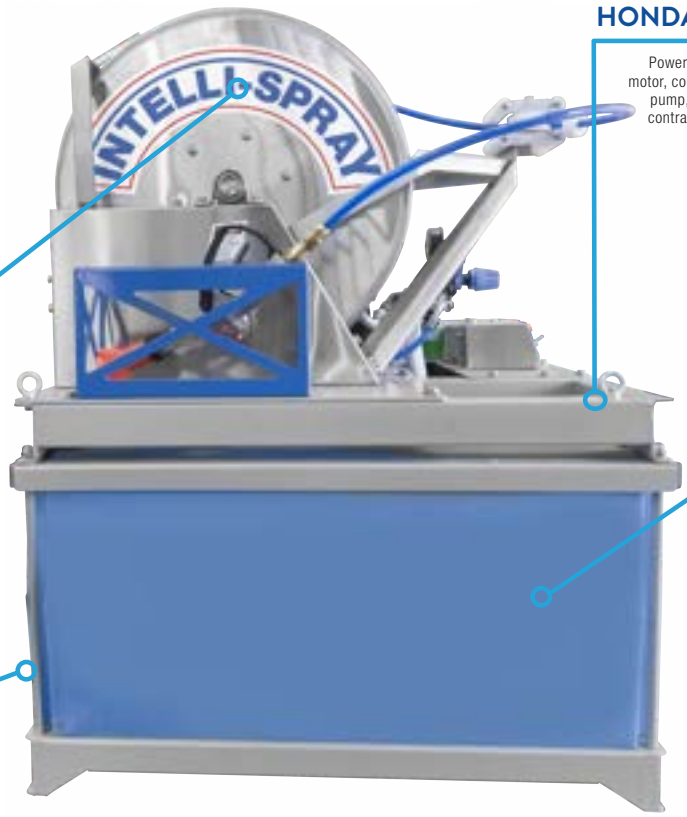
FEATURES



POWERED BY HONDA & BERTOLINI

Powered by an efficient 5HP Honda motor, coupled with a reliable Bertolini pump, the UTV is ideal for farmers, contractors, golf courses and parks managers.

SPRAY IN HARD-TO-REACH AREAS

With the option to fit the UTV sprayer on a side-by-side or dual cab ute, the UTV spot-sprayer will eradicate weeds in the most difficult-to-reach terrain

COMPACT & VERSATILE

The UTV is uniquely designed to fit inside the tray of any UTV vehicle. The mounting system allows the tank and reels to be stacked upwards, in order to optimise space on your UTV. Available in 300 or 400L tank options

DURABLE & ROBUST CONSTRUCTION

The tough powder-coated framework ensures reliable, long-lasting performance.
