MODEL 12VS REEL

THE INTELLI-SPRAY DIFFERENCE:

- 30+ YEARS EXPERIENCE
- SAVE TIME & MONEY
- REDUCE FRUSTRATION
- IMPROVE SAFETY
- AUSTRALIAN MADE
- REMOTE TECHNOLOGY
- SUPA-SLIP HOSE
- HEAVY DUTY
- CUSTOMER CARE

PRODUCT OVERVIEW

The 12VS is a versatile “reel only” option for anyone that is looking to upgrade their manual reel to a powered one.

Complete with remote controlled reel retraction, the 12-volt motor is powerful enough to retract up to 100m of Supa-Slip® hose, at the push of a button.

The remote-controlled retraction enables the operator to cover twice as much area in the same amount of time. This means spraying can be completed in half the time without any extra effort. The 12VS reel attaches easily to any existing spray system.

FEATURES

PROUDLY AUSTRALIAN MADE

Designed, fabricated and assembled in Australia, our mechanically-driven reels will never burn out your motor, unlike conventional 12-volt spray systems.

MANAGE MORE WEEDS, SAVING TIME & MONEY

The remote-controlled retraction enables the operator to cover twice as much area in the same amount of time. This means spraying can be completed in half the time without any extra effort. With a hand-held nozzle, the spray is targeted on only selected vegetation, reducing chemical usage which saves you money on costly chemicals.

DURABLE AND LONG-LASTING

The powder-coated framework with slip-on capability is easily fitted to your existing spray unit. Comes complete with 4 bolt-down plates for easy fitment.

DURABLE, ROBUST CONSTRUCTION

The reel accommodates up to 150m of Supa-Slip® hose. Powered by a 12-volt high power, low rev motor, the 12VS Quik Spray reel can be used for horticultural and weed spraying activities.

SPECIFICATIONS 12VS

	12VS
ENGINE	RETRACTION POWER PROVIDED BY BELT DRIVEN HEAVY DUTY ELECTRIC 12 VOLT HIGH POWER LOW REV MOTOR
