9TDE TWIN REEL SPRAY SYSTEM

THE INTELLI-SPRAY DIFFERENCE:

- 30+ YEARS EXPERIENCE
- SAVE TIME & MONEY
- REDUCE FRUSTRATION
- IMPROVE SAFETY
- AUSTRALIAN MADE
- REMOTE TECHNOLOGY
- SUPA-SLIP HOSE
- HEAVY DUTY
- CUSTOMER CARE

PRODUCT OVERVIEW

The fastest, easiest way to manage weeds, the Intelli-Spray 9TDE is a compact version of the 9TBE model, maximising space on your vehicle or trailer, by stacking the reels above the pump and motor, allowing for a shorter framework length.

With twin reels for dual operation and remote controlled retractable hose reels, the 9TDE unit is the preferred weed spraying system for councils, farmers and contractors across Australia.

With remote controlled reel retraction, it'll save you time and effort by rewinding the hose for you, with the simple press of button on a hand-held transmitter. The slip-on one-piece framework is built and designed for heavy duty spraying tasks, that not only eliminates weeds, but helps you work faster and boost your productivity.

FEATURES

PROUDLY AUSTRALIAN MADE

Designed, fabricated and assembled in Australia, our mechanically-driven reels will never burn out your motor, unlike conventional 12-volt spray systems.

MANAGE MORE WEEDS, SAVING TIME & MONEY

Twin reel units enable two operators to work independently of each other, as each reel has its own radio frequency. This increases productivity where large amounts of area need to be covered in the shortest amount of time. With a hand-held nozzle, the spray is targeted on only selected vegetation, reducing chemical usage which saves you money on costly chemicals.

CUSTOMISABLE TO THE WAY YOU SPRAY

Each Quik Spray is made-to-order, to fit your needs. Choose from 200L to 2000L tank sizes, upgraded pump and motor options including diesel motors, boomless jets, lifting bars and firefighting capabilities. Easily mounted to a ute or trailer.

DURABLE, ROBUST CONSTRUCTION

The workhorse of the range and renowned for our tough hose rewind action, Quik Spray's reel retraction is strong enough to assist you up steep, hilly terrain if required. Each reel accommodates up to 200m of hose, which is ideal for isolated, difficult-to-reach locations.

SPECIFICATIONS

9TDE

	9TDE
ENGINE	GX270 9HP GENUINE HONDA OHV MOTOR WITH ELECTRIC START AND 10AMP ELECTRIC CHARGE COIL
PUMP	BERTOLINI PA530 OR PA730 PUMP (54 & 74L/MIN | 14.2gal & 19.5gal 580 PSI MAX)
CONTROLLER	4 OUTLET PRESSURE CONTROLLER IN BAR & PSI
HOSE	TWO HOSE REELS WITH UP TO 200M (656FT) OF 3/8"ID SUPA-SLIP® HOSE PER REEL
REEL	TWIN REELS WITH INDEPENDENT RADIO CONTROLLED RETRACTION.
BATTERY	POWERFUL CHARGING OF 12V BATTERY THROUGH UNIQUE 10A OUTPUT HONDA MOTOR
TANK SIZE	UV STABILISED TANK OPTIONS AVAILABLE IN TANK SIZES 400-2000L | 106GAL TO 528 GAL UV STABILISED TANK. AVAILABLE WITH OR WITHOUT TANK
FRAMEWORK	HARD POWDER COATED FRAMEWORK WITH SLIP-ON CAPABILITY AND BOLT DOWN PLATES
