FIREHOPPER TRAILER

PRODUCT OVERVIEW

The FireHopper™ is a rugged and dependable firefighting solution, purpose-built to handle emergency situations with ease.

This versatile unit can complete a variety of spraying tasks, including firefighting, dust suppression, equipment washdown, water and landscaping, occasional water transfer, liquid fertiliser application, cleaning outdoor areas, and emergency water supply.

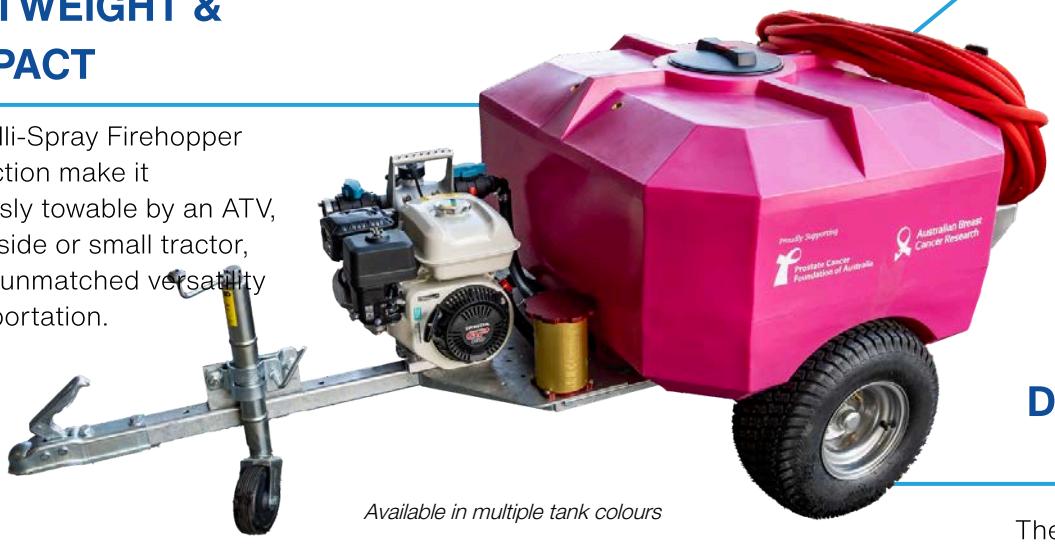
FEATURES

LIGHTWEIGHT & COMPACT

The Intelli-Spray Firehopper construction make it effortlessly towable by an ATV, side-by-side or small tractor, offering unmatched versatility in transportation.



Available in multiple tank colours

CENTRE OF GRAVITY

A standout feature is the unit's ultra-low centre of gravity, ensuring exceptional stability even on rugged terrain. This design element significantly reduces the risk of topping, providing people of mind during operation.

DURABLE & ROBUST CONSTRUCTION

The tough UV-stabilised poly tank ensures reliable, long-lasting use and precise control over water flow.
