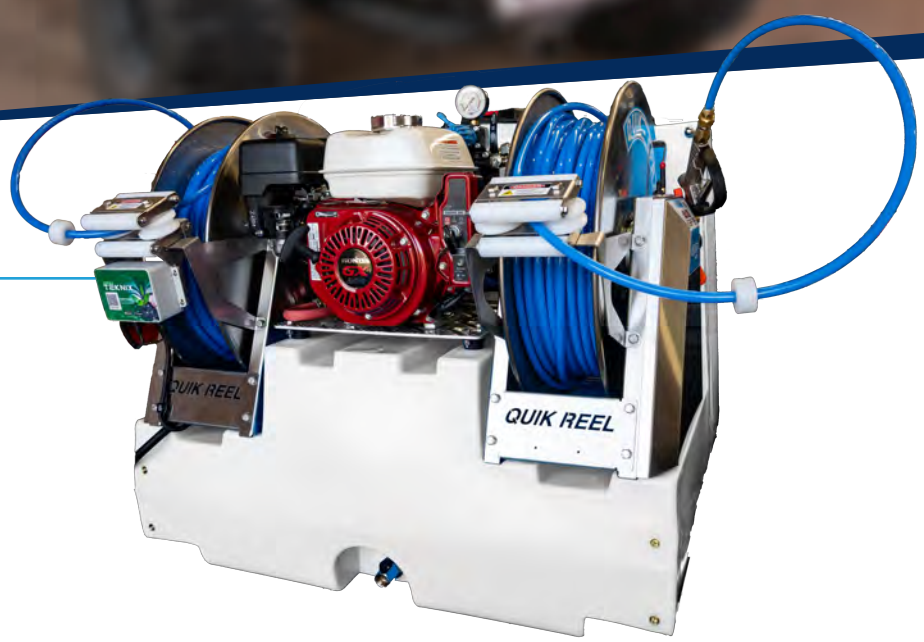
- IMPROVE SAFETY
- AUSTRALIAN MADE
- REMOTE TECHNOLOGY
- SUPA-SLIP HOSE
- HEAVY DUTY
- CUSTOMER CARE



PRODUCT OVERVIEW

Welcome to the most compact, versatile sprayer from Intelli-Spray. Perfect for UTV's or side-by-side farm vehicles, the L-shaped tank provides easy access to the reels at arm height and assists in reducing tank surge when travelling. If space is a factor, our compact design is ideal for smaller vehicles, with plenty of room to spare!

Available as a single or twin reel system, the QR UTV System is independently powered by a tough 6.5HP Honda motor and comes ready to spray!

Ideal for agricultural spot-spraying, it comes complete with remote controlled reel retraction, so you'll double you're spraying efforts. The 12-volt motor is powerful enough to retract up to 100m of Supa-Slip® hose, at the push of a button.

Easy to load and remove when you are finished your spraying tasks. This unit is the most compact footprint in the whole Intelli-Spray range!

Perfect for UTV's pr side-by-side vehicles

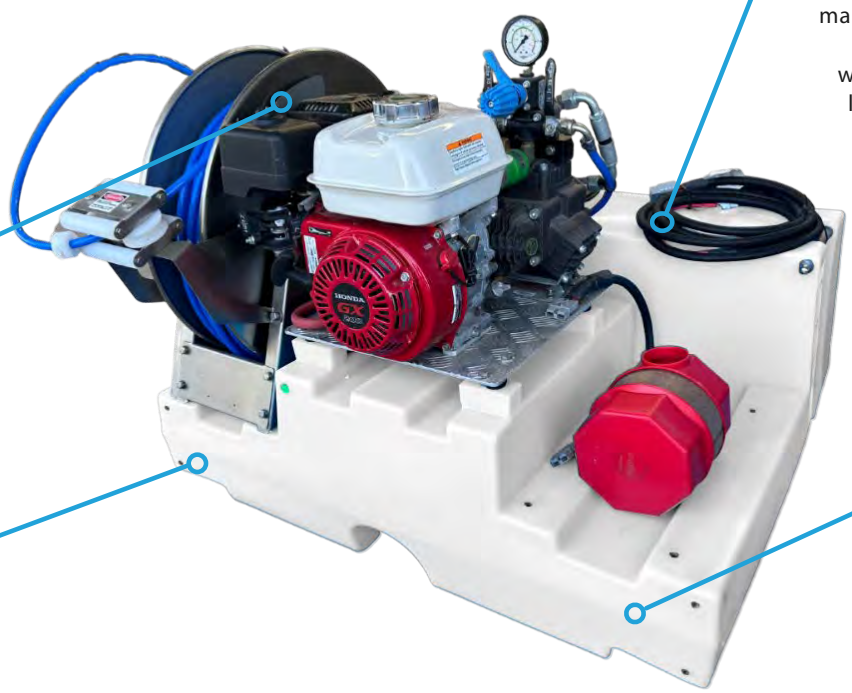
FEATURES

EASY-TO-USE HOSE REELS

The Easy-Walk Spool System is the latest in advanced hose reel management, making handling a breeze when walking out long lengths of hose.



SPRAY IN HARD-TO-REACH AREAS

With the option to fit the QR UTV System on a side-by-side or dual cab ute, the unit will eradicate weeds in the most difficult-to-reach terrain

COMPACT & VERSATILE

Ideal for spot spraying, water transfer, and machinery wash down. Will also fit between the wheel arches of a dual-cab ute.

DURABLE & ROBUST CONSTRUCTION

The tough UV-stabilised poly tank ensures reliable, long-lasting
