RC300 GOLF REEL

PRODUCT OVERVIEW

The Intelli-spray self-guiding hose reel takes the hard work out of rewinding long lengths of hose. Providing a powerful and consistent retraction, the golf reel helps you work faster by improving your watering efforts around the golf course.
The reel features our unique self-guiding “Archimedes” rewind action which ensures a fast, neat and hands-free rewind from 180° around the reel. Built using the highest quality components, the unit provides a safe, effective and user-friendly rewind every time. The reel can also be retracted using a manual handle if required.

The unit features a complete guarding system, making it one of the safest reels on the market. The Golf Reel revolutionises hand-watering tasks for a faster, easier, more efficient watering application.

FEATURES

COMPACT

Fits in all golf vehicles.

VERSATILE

360-degree inlet swivel. The reel features our unique self-guiding 'Archimedes' rewind action which ensures a fast, neat and hands free rewind from any angle.

SAFETY

Reduces injury from lifting heavy hoses. Manual override button for powered retraction as well as hand-wind capacity (manual handle included)

CONSTRUCTION

Lightweight aluminium construction makes for a strong, corrosion resistant hose reel. Low friction waterway for better performance at the nozzle.
