BUILT TOUGH.
BUILT SMART.
BUILT FOR YOU.

INTELLI-SPRAY SILVER SERIES

Australian engineering meets everyday versatility.

Built for contractors, farmers, and councils who demand reliability without the need for mechanical reels, the Intelli-Spray Silver Series is a 12-volt powered sprayer that works as hard as you do. With smart design, powerful pumps, and your choice of tank size, reel setup, and start option, you can build the perfect sprayer for your vehicle and workload.

Whether you're covering small paddocks or council reserves, every unit is made tough to withstand real-world conditions — keeping you spraying longer with less downtime.

WHY CHOOSE THE SILVER SERIES?

- Built tough, priced right — professional performance at an accessible price point.
- Fully configurable — mix and match tanks (300–1000 L), hose length (100–200 m), and pump options to suit your needs.
- Designed for your vehicle — fits single cabs, space cabs, dual cabs, and styleside trays.
- Australian-made quality — backed by over 37 years of field-tested expertise.
- Less downtime — fast setup, easy cleaning, and durable components.
