QUIK CHEM

CONTACTLESS CHEMICAL TRANSFER SYSTEM.

Quik Chem, a world first, no measure contactless chemical transfer system. Simply select how many litres and press run. No more ladders, measuring jugs or spills.Unlike other systems that rely on measuring chambers, Quik Chem meters directly from the drum with no intermediate container or operator contact. Designed for agricultural, vegetation management, and industrial applications where accuracy and operator safety are critical.

FEATURES

- 99% accurate chemical measure.
- No jugs, no chambers, no ladders, no spills.Digital controls for up to 3 chemicals
- Individual dosage controls adjusted for each chemical.
- Can be retrofitted to your existing unit
- Available as an integrated system with a 1.2m locker.
